How will the proposed revision affect any catalog lists of options for majors or minors?

The proposed revision should not affect any catalog lists for majors/minors.

Rationale for course within departmental and collegiate context and based on assessment results:

Due to changes in KINE Department staffing, this course has departed from the current catalog description. This course is now taught with attention to appropriate research methods and relevant scientific literature, thus preparing students for their capstone project. The prerequisites have been dropped because they were not appropriate for some allied health concentrations or the revised Kinesiology major.
