KINE 205 Anatomy and Physiology I OR BIOL 103 Biology of the Human Body

How will the proposed revision affect any catalog lists of options for majors or minors?

Structural Kinesiology is a required course in some tracks within both the Allied Health and Kinesiology majors. It is also required for the Kinesiology minor.

Rationale for course within departmental and collegiate context and based on assessment results:

For Structural Kinesiology to be taught at the 300 level, student need to have had a solid introduction to the musculo-skeletal system. For Allied Health and Kinsiology majors, KINE 205 is the appropriate prerequisite. To make the Kinesiolgy minor possible, we have allowed BIOL 103 to serve as the prerequisite. BIOL 150 and CHEM 110 are both prerequisites for KINE 205; adding those 2 courses to the minor, however, would be impractical. BIOL 103 will provide students with most of the background they need for this course.
