

Departmental and Program Assessment Annual Assessment Plan Report

Academic Year: 2011-2012

Academic Unit: French

Chair: _____ Cathy Jellenik _____

Student Assessment Plan (SAP) – Basic Check-list – If your answers are “yes” a question in this section, no further explanation is necessary.

1. Is there a current assessment plan for your department, program, or general education component? Current implies that this SAP is used by the department. It does not have to be rewritten unless your assessment plan has changed. It should be on the web at <http://www.hendrix.edu/academics/academics.aspx?id=7264>.

☒ yes ☐ no *If no, provide a timeline that will produce a plan by the end of the next academic year.*

2. Does the current SAP include student learning goals? Departmental/programmatic/general education component student learning goals should be able to stand alone as a list without pages of explanatory commentary.

☒ yes ☐ no *If no, provide a timeline that will produce student learning goals by the end of the next academic year.*

3. Does your SAP include a list of assessment data collected yearly? Assessment data lists should be able to stand alone without pages of explanatory commentary. Additionally, collected data should be of enough value to the department that it is read yearly. If not, it is probably not of sufficient use to collect.

☒ yes ☐ no *If no, provide a timeline that will produce an assessment data list by the end of the next academic year.*

4. Are student learning goals available to students on the web on the departmental/programmatic page(s)?

☐ ☒ yes ☐ no *If no, provide a timeline that will produce student access to the learning goals by the end of the next academic year.*

5. Are student learning goals, appropriate for each course, included in the course syllabi in your department or program?

☒ yes ☐ no *If no, provide a timeline that will produce student learning goals by the end of the next academic year.*

6. Does your SAP include direct assessments? “Direct” refers to evaluated student work.

☒ yes ☐ no *If no, provide a timeline that will produce a direct student assessment tool by the end of the next academic year.*

7. Describe which indirect assessments in your assessment plan have been collected for the year and which have not. “Indirect” refers to student surveys, interviews, or opinions.

Student evaluations were collected for each course taught. Faculty and program reviews were completed.

Student Assessment Plan Development - Departments and programs who have a complete and current SAP should consider the next step in SAP development. *This could easily be the annual action item for your department or program (next section #5).*

1. As a next step in SAP development, departments/programs are encouraged begin working on an assessment audit to determine how student learning goals fit across the courses in the major. This could be as complicated as a full grid of student learning goals, or a single learning goal, across the courses in the major. (This has not been required of departments, but it is a recommended next step when the SAP is up to date.)

☐ yes ☐ no *If yes, please provide the results in either in prose or as a table.*

2012-2013 is my first year at Hendrix, and I will be developing a SAP over the course of the year.

Yearly Assessment Report – each department or program is expected to have assessment discussions for at least two hours each academic year. If necessary, help is available from David Sutherland, just call.

1. What was your planned action item identified in your last report?

Course materials and assignments will be updated based on direct and indirect assessment data.

2. Briefly summarize the topics discussed in your annual assessment meeting. (If you have not met this year, why not and when do you plan to meet?)

The French department considers such questions as student learning goals, student outcomes, and direct and indirect assessment instruments.

3. What was the conclusion of your assessment discussion and how did the collected assessment data inform your conclusion? Specifically describe any curricular or programmatic changes that have been made that were based, at least in part, on the data in your SAP.

Course materials and assignments were updated based on previous direct and indirect assessment data.

4. What are the plans for improving student learning in your unit?

Courses will continue to be updated based on student outcomes.

5. Define at least one new action item for your unit that will be a goal of your assessment discussions next year?

(This action item could be to work on the SAP or on the assessment audit to correlate student learning goals with specific courses, described above.)

Course materials and assignments will be updated based on direct and indirect assessment data.
