*"AGS is THE best experience of my life to date. Never have I had such a strong sense of community with the people around me."*

*"Governor's School was completely life changing. I don't know how to describe it, because everything was just so awakening, so eye-opening. Every time I look at my yearbook, it's like I'm looking back on some sort of dream, because it was the best experience of my life so far. I love you, AGS!"*

*"Wow. I'm so lucky to have attended such a well-planned, enriching program. I've met so many smart and creative people here. The teachers and staff are remarkable people. The environment at AGS was perfect and first-rate. I'm so thankful for having such a great opportunity to learn and grow at AGS."*

*"I do NOT want to go home now. This place is brilliant. I've made new friends, learned to think in different ways and have become more independent."*

Hendrix College Campus • Conway, Arkansas

Administered by the Arkansas Department of Education Programs for the Gifted & Talented
