

How Students Assess Their Experience

Students' perceptions of their cognitive and affective development, as well as their overall satisfaction with the institution, provide useful evidence of their educational experiences. For more details, refer to your *Frequencies and Statistical Comparisons* report.

Perceived Gains Among Seniors

Students reported how much their experience at your institution contributed to their knowledge, skills, and personal development in ten areas.

Perceived Gains (Sorted highest to lowest)	Percentage of Seniors Responding "Very much" or "Quite a bit"
Thinking critically and analytically	98%
Writing clearly and effectively	92%
Speaking clearly and effectively	75%
Being an informed and active citizen	73%
Working effectively with others	66%
Developing or clarifying a personal code of values and ethics	64%
Analyzing numerical and statistical information	63%
Understanding people of other backgrounds (econ., racial/ethnic, polit., relig., nation., etc.)	61%
Solving complex real-world problems	60%
Acquiring job- or work-related knowledge and skills	48%

Satisfaction with Hendrix

Students rated their overall experience at the institution, and whether or not they would choose it again.

Administration Details

Response Summary

	Count	Resp. rate	Female	Full-time
First-year	178	45%	63%	99%
Senior	138	54%	67%	100%

Refer to your *Administration Summary* and *Respondent Profile* reports for more information.

Additional Questions

Your institution did not choose to administer additional questions. In future administrations, you may customize NSSE by participating in a topical module or a consortium. See our Web site for more information. nsse.iub.edu

What is NSSE?

NSSE annually collects information at hundreds of four-year colleges and universities about student participation in activities and programs that promote their learning and personal development. The results provide an estimate of how undergraduates spend their time and what they gain from attending their college or university. Institutions use their data to identify aspects of the undergraduate experience that can be improved through changes in policy and practice.

NSSE has been in operation since 2000 and has been used at more than 1,500 colleges and universities in the US and Canada. More than 90% of participating institutions administer the survey on a periodic basis.
