

TEC

	1. The ability to comprehend and appreciate a set of complex issues relevant to being engaged citizens.	1. The ability to make connections between the evidence and methods from two distinct disciplines in order to formulate arguments about engaged citizenship.	1. The ability to express those arguments clearly in writing and discussion.	1. The ability to engage in and reflect on experiential learning that connects directly to the classroom experience, preparing the students for vibrant Odyssey experiences later in their Hendrix careers.
