Dear Theatre Arts and Dance Department Chair,

As you know from the Department Chairs Meeting on November 12, the Assessment Committee is asking all departments to revise their Student Assessment Plans so that we have greater consistency across departments. We need to do this for our report to the Higher Learning Commission in June 2020, so we are asking you to complete this process by **March 1**. In many cases, this will just involve reformatting what you already have. We have provided you with multiple templates and examples that can be used to complete this process here.

The Assessment Committee has reviewed your current Student Assessment Plan. We found that in all areas, your Plan approaches or meets standards. We know that you did a lot of work on this last year, and we appreciate that! However, there are a few areas that need attention. First, we recommend an edit to your last student learning goal, because it is difficult to measure commitment. It could read "Demonstrate rigor, discipline, and care in their commitment to [productions? Course work? Something?]." Your Curriculum Mapping is good and does not need to be revised. While you have strong direct and indirect assessment tools and indicate which one is used to assess each learning goal, not all learning goals appear to have both direct and indirect evidence. This could be easily remedied by simply asking about each learning goal in your senior exit interview. As you can see from the template, we would like detail about which specific elements of your assessment tools relate to each learning goal. We want you to include the tools that you will use for direct and indirect assessment (i.e. specific student survey questions and specific references to learning goals on rubrics) in your SAP. Finally, you are one of very few departments to have a clear Cycle of assessment as detailed in your Student Assessment Report. This year we are working to create consistency across departments, so we would appreciate it if you could use the template provided in the materials to indicate which goals will be assessed in what years, and using what methods.

SAP: Learning Goals	Department has clear learning goals with outcomes consistently stated in measurable and observable terms. Meets/Exceeds Standards	Learning goals are present, but only some are stated in measurable and observable terms. Approaches Standards	Learning goals are stated but none are written in measurable and observable terms or plan offers no student learning goals. Needs Attention
SAP: Curriculum Mapping	It is easy to determine which courses complete each skill and at what level. Meets/Exceeds Standards	It takes some effort to determine which courses complete each skill and/or at what level. Approaches Standards	It is unclear which courses complete each skill, or no curriculum map was provided. Needs Attention
	Assessment plan includes at least one indirect measure clearly connected to each learning goal. It is clear how these measures will be used to determine student learning.	Assessment plan includes indirect measures that are connected to some, but not all learning goals. It is not always clear how these measures will be used to determine student learning.	Assessment plan includes no indirect measures of student learning.
SAP: Indirect, Direct, Cycle	☐ Meets/Exceeds Standards	✓ Approaches Standards	☐ Needs Attention
	Assessment plan includes at least one direct measure clearly connected to each learning goal. It is clear how these measures will be used to determine student learning.	Assessment plan includes direct measures that are connected to some, but not all learning goals. It is not always clear how these measures will be used to determine student learning.	Assessment plan includes no direct measures of student learning.
	☐ Meets/Exceeds Standards	✓ Approaches Standards	☐ Needs Attention
	Assessment plan provides a clear cycle of goals to be assessed each year, and indicates when all goals will be assessed.	Assessment plan provides a cycle of goals to be assessed each year, but not all goals are represented.	Assessment plan provides no cycle of goals to be assessed each year.
