Dear English Department,

After focusing on clarifying and strengthening your Student Assessment Plan (<u>SAP</u>), we asked you to provide us with your Annual Assessment Report (which can be found <u>here</u> – note that you may have to log in to see the files) that shares the evidence that you collected while following your SAP and discusses your plans to make evidence-based change in the future. We recognize that Spring 2020 was a challenging semester, and appreciate the work that you continued to do in the face of those challenges to help students learn!

As you can see from the rubric, the Assessment Committee found that your presentation of evidence could be clearer. Although you have clearly identified both direct and indirect assessment methods, you only included data in your report from your direct assessment. Your charts of direct assessment data are excellent!

In terms of your use of evidence, you focus more on the indirect assessment data, which we could not see. However, there is clear consideration of the changes you want to make and why.

We want to applaud your inclusion of meeting details, including the date of your meeting. For future reports, we would ask you to include a list of attendees. When we provided our template for these reports, we didn't realize how important that was, and you were one of few departments to so clearly indicate meeting details!

For your 20-21 annual assessment report, please refer to your <u>SAP</u>. Your assessment cycle will give you your focus for your 2021 meeting, and your direct and indirect assessment instruments should be included as attachments to the plan. If you need to make updates to the assessment instruments (surveys, rubrics, etc) or modify your assessment cycle, please notify us and provide us with an updated SAP before scheduling your annual assessment meeting. If you would like to review your previous report, either as a reference to complete this year's reporting or to remember what this letter is referencing, you can find those <u>here</u>. Your Annual Assessment Report is due to the Office of Assessment by **May 31, 2021**.

With best wishes for a productive assessment cycle!

Sasha and Megan

Evidence   All evidence from the SAP has been collected and is provided in the report. The evidence is presented in a way that makes sense to an outside audience.   Most evidence from the SAP has been collected and appears to be included in the report. The evidence is presented in a way that makes sense to an outside audience.   Evidence of the same sense to an outside audience.   Evidence of departmental discussions and faculty collaboration on assessment     Use of Evidence   Images are proposed, the evidence of departmental discussions and faculty collaboration on assessment   Meets/Exceeds Standards   Images are proposed, the evidence of departmental discussions and faculty collaboration on assessment   Images are proposed, the evidence of departmental discussions and faculty collaboration on assessment   Evidence evidence of departmental discussions and faculty collaboration on assessment   Evidence evise sense to an adsessment   Images are proposed to a sense to an adequate connection between the assessment results and proposed changes are proposed, the evidence provided backs up this   Images are proposed, the evidence provided does not support this decision.     Images are proposed, the evidence of departmental discussions and faculty collaboration on assessment   Evidence exists of either departmental discussions or faculty collaboration on assessment   Images are proposed proper departmental discussions or faculty collaboration on assessment	Rubric for Assessment Meeting Report 2020				
Use of Evidence   There is an explicit, well-reasoned connection between the assessment the assessment results and the proposed changes. If no changes are proposed, the evidence provided backs up this decision.   The connection between the assessment results and proposed changes are proposed, the evidence provided backs up this decision.   The connection between the assessment results and proposed changes, and report and documented evidence of Collaboration and Communication   There is explicit and documented evidence of elearnmental discussions and report preparation. If the department learning goal is assessed in an individual course, discussions   Evidence exists of either department learning goal is assessed in an individual course, discussions   There is number of the department learning goal is assessed in an individual course, discussions   There is number of the wider discussions or faculty the full department.		All evidence from the SAP has been collected and is provided in the report. The evidence is presented in a way that makes sense to an outside audience.	Most evidence from the SAP has been collected and appears to be included in the report. The evidence is presented in a way that leaves an outside audience with some remaining questions	Evidence either bears no relation to the SAP or is not included in the report.	
Evidence of Collaboration and CommunicationThere is explicit and documented evidence of departmental discussions and faculty collaboration on assessment, proposing any changes, and report learning goal is assessed in an individual course, discussionsEvidence exists of either departmental discussions or faculty collaboration on most assessment activities. If the department learning goal is assessed in a course, discussions are mostly at the course level but do include participation by individual course, discussionsThere is insufficient evidence of departmental discussions or faculty collaboration on most assessment activities. If the department learning goal is assessed in a course, discussions are mostly at the course level but do include participation by the full department.There is insufficient evidence of departmental discussions or faculty collaboration on assessment activities. If the department learning goal is assessed in a course, discussions are mostly at the course level but do include participation by	Use of Evidence	There is an explicit, well- reasoned connection between the assessment results and the proposed changes. If no changes are proposed, the evidence provided backs up this	There appears to be an adequate connection between the assessment results and the proposed changes, but it is not explicitly explained. If no changes are proposed, the evidence provided raises some questions about	The connection between the assessment results and proposed changes are indiscernible. If no changes are proposed, the evidence provided does not support this	
Meets/Exceeds Standards Approaches Standards Needs Attention	Collaboration and	There is explicit and documented evidence of departmental discussions and faculty collaboration on assessment, proposing any changes, and report preparation. If the department learning goal is assessed in an individual course, discussions take place at the program level.	Evidence exists of either departmental discussions or faculty collaboration on most assessment activities. If the department learning goal is assessed in a course, discussions are mostly at the course level but do include participation by the full department.	There is insufficient evidence of departmental discussions or faculty collaboration on assessment activities. If the department learning goal is assessed in a course, no participation of the wider department is evident.
