The Environmental Studies program is designed to provide an integrated and interdisciplinary focus. As such, it both complements and embodies the Liberal Arts aim of combining strengths of the natural sciences, social sciences, and humanities to prepare students to be well-equipped citizens in an increasingly globalized world. Core requirements for Environmental Studies majors are designed to fit requirements for graduate programs in Environmental Studies or related fields while the electives allow students to specialize in their particular interests.

**Courses**

All other courses required for the Environmental Studies major are described under the respective academic departments.

**EVST 275 American Literature and the Environment** (LS, W1)
An examination of how American writers have depicted their culture’s relationship to the environment, mostly through fictional representations (novels and short stories), but with some attention paid to nonfiction, poetry, and theoretical writing. The course will study how writers have imagined their environment and their place in it, though other aspects of the texts will also be studied (character, point of view, gender, race, or economics), and the term “environment” will not be used as a synonym for “nature.” Cross-listed as ENGL 275.

**EVST 497 Senior Seminar**
A capstone experience involving common readings, research methods and both written and oral presentation of independent research. Oral presentation and defense of research functions as the senior comprehensive exam. No Credit. Prerequisite: senior standing.

**EVST 498 Environmental Internship**
Provides opportunity for students to engage in an applied field experience. Focus of internship to be determined by the student’s Environmental Studies emphasis. Internship must be approved in advance by Environmental Studies faculty. Prerequisite: junior or senior standing.
